READY TO SIMPLIFY YOUR PERMIT MANAGEMENT?

ABOUT PERMIT MODULE

MuniLogic's Permit Module manages all your permit and inspection activity such as land development permits via Land development Municipal Software. Just like the License and Code Enforcement Modules, this module is customizable to your unique needs. Whether you are looking for traditional Building, Plumbing, Mechanical, Fire, and Zoning permits or something more specifically tailored to your needs, the chances are high that we can offer a solution that exceeds your vision. Another powerful benefit of Land development Municipal Software is that all inspections can be assigned to field personnel and scheduled directly onto their calendars. Results are maintained within the same area for quick access to critical information.

The MuniLogic's land development permit improves permit issuance and inspection procedures by providing an intuitive interface. The Module, as an end-to-end solution, includes anything from document submission to payment processing to issuance and review. It is critical to manage and provide work permits in order to provide a secure working environment. However, it is a time-consuming operation. For example, where there is a lack of cooperation between the parties concerned. Use the MuniLogic's Land development Municipal Software to create a streamlined and reliable workflow in land development permit.

- Add multiple permit types for each application like land development permit with Land development Municipal Software.

- Schedule and assign inspections to field personnel using MuniLogic shared calendars.

- "Roll-up" fees, plan reviews, and inspections to gain an overall perspective on the permit activity.

- Creating a safe working environment.

- Configure required licenses by permit type to ensure proper approvals on the land development permits.

- The use of blueprints makes for a more organized and productive operation.

- Validation is fast and digital via our Land development Municipal Software.

- Assign payment fees taken directly from your fee schedule and log all transactions.

If you are ready to simplify your permit management, give us a call today or email to learn more.
